

Western Academy

2024 Summer Program

<https://www.westernacademy.net/camps>

The Western Academy spirit of adventure and freedom is well represented in the offerings for this year's summer camps. Boys ages 7 to 14 can reenact famous battles using miniature figures, learn how to play the guitar, skin and cook an animal, run wild at recess, and so much more! There is something to ignite the mind and heart and imagination of every single boy. Come find out what sets Western Academy Summer Camps apart from the rest! All camps are run by Western faculty or staff.
